FwdMbl apps leverage the power and efficiency of mobile software to put business system functionality in the palm of your employees' hands, wherever they are and wherever they go. Our apps are multilingual, and your workflows are accessible offline and won't stop or slow down, even if you have a weak signal or no signal at all. FwdMbl makes real-time or batch updates whenever you have a connection.

Integration with Any Backend System

FwdMbl apps integrate with virtually any backend system, including your ERP, CRM, accounting systems, and more. Our solutions run on-site or in the cloud, with 24/7/365 availability, painless installation, and the capacity to process up to millions of transactions per day.
